RGB COLOR CHANGING CHASING PLC LED ROPE LIGHTS

RGB COLOR CHANGING PLC LED ICICLE LIGHTS

RGB COLOR CHANGING NET PLC LED LIGHT SETS

Don't worry about complicated wiring or cumbersome connections with our new range of RGB Color Changing Chasing PLC LED Lights.

PLC stands for power line communication and are unique in that all RGB color data is transmitted over only two wires vs. the traditional four wire RGB rope and strip lights.

PLC RGB lights use a multi-function RGB controller with Radio Frequency (RF) remote control that offers multiple preprogrammed color and effect options; choose your own custom static color or one of the blinking, flashing, fading, or chasing options.

Easily control the color, dimming, effect function and speed with the smooth touch button RF remote and the built-in memory controller function will save the last used setting even after unplugging.
